CLEANS DEODORIZES & FRESHENS IN 1 STEP.

To clean and deodorize floors, use only 1 or 2 oz. of TRASH BUSTER per gallon of water. Apply with mop, cloth, sponge or brush. To free surface of any film, simply flush with water. Six to eight ounces of concentrate, mixed with one gallon of water is all that is required to clean and deodorize virtually any trash chute. Just spray it down the chute from the uppermost floor and let it splash down the walls. After a few minutes wait, flush the chute with water. The same proportions are recommended for eliminating offensive odors from garbage cans, dumpsters, etc. Just spray or wet all surfaces thoroughly and allow to remain on surface to neutralize offensive odors.
